

Reflect on Portrait of a Photographer Video Project

Answer the following questions using paper and pen(cil).

1. In what ways are the videos (V2 & V3) different from one another? What differences would you expect a viewer to notice?
2. How satisfied are you with your final video ("V3") from this project? Is this video of higher quality than "V2"?
3. Do you feel the process you underwent with using Premiere Pro to complete "V3" was worthwhile? Did you learn something of value from this final video?
4. Did you continue to learn more about your photographer as you moved from the first project to the last, or did you largely rely on your original research to create "V2" and V3"?
5. Would you recommend Mr. McCarthy repeat this three step process (Google Slides, "V2," "V3") for future photography classes, or would you recommend changes? Please describe.
